## Traffic Stop Data Collection

### **DISCLAIMER:**

The City of East Grand Rapids and the Department of Public Safety are committed to unbiased policing and the fair, impartial and equitable treatment of all people. Department policy strictly prohibits stopping or detaining any person based on race, ethnicity, traits, or lifestyles that may cause an inappropriate bias response or unjustifiable or unlawful discriminatory action.

The Department will report quarterly raw numbers for: (1) vehicle stop categories; and (2) crash incidents without analysis. The reader is cautioned to not draw any definitive conclusions at this point. There are many factors that must be considered to develop a comprehensive understanding of what is occurring when it comes to vehicle stop activity. Research has clearly shown that associated datasets such as geographic location, reason for stop, whether a search occurred, and the result of the traffic stop need to be factored into the analysis.

When it is determined that enough data is collected by several independent research firms/experts, the Department will develop an RFP for an independent research firm/expert to review and conduct advanced examination and analysis of our traffic stop data, including all relevant data sets. Once the study is complete, it will be shared publicly.

**Commentary:**

The reduction in larcenies can partially be attributed to the arrest of three individuals who committed numerous larcenies in East Grand Rapids, Kent County, Kentwood, and Grand Rapids. These individuals are facing numerous charges from several area departments.

**Commentary:**

Three of the assault & battery cases were reported by Blodgett Hospital where patients assaulted staff members. The hospital is trying to be more proactive and diligent in reporting these types of incidents to our Department. Three incidents started out as domestics which led to fights. Another incident occurred after a traffic crash where one driver grabbed the other parties arm.

**Commentary:**

The cumulative arrest totals for each year include both juvenile and adult arrests. When reviewing the figures above, please keep the following in mind: Arrests represent the actual number of individuals arrested. An individual may have been charged with multiple offenses. The reader is cautioned against comparing arrests and offenses, as many times they do not occur in the same quantities.

**Commentary:**

The number of traffic stops is down most likely due to COVID and officer apprehension regarding making stops and then potentially being accused of stopping drivers based on race.

**Commentary:**

Multiple arrests and/or clearance codes may be issued for one criminal complaint resulting in the number of clearance codes being greater than number of assigned cases.

At this time last year many schools in the area were conducting classes online. Many student's were out and about. With the return of traditional in-school classes, opportunities for committing crimes (particularly larcenies) have decreased. This directly correlates to the case load reduction.

**Commentary:**

Fire Service Activity includes any calls received where fire apparatus responded. The increase in "Hazardous Conditions" calls can be attributed to severe weather conditions, particularly the unusual windstorms.

**Commentary:**

Officers will generally contact at least one individual during a call for service, but have numerous contacts with citizens that are not documented throughout the course of a 24hr. shift. Calls for service include all contacts with individuals that would involve an arrest or a Response to Resistance. Use of force is a rare occurrence in East Grand Rapids.
